

## Integrating Sendgrid Services

Team ID	PNT2022TMID04644
Project Name	Personal Expense Tracker

### GENERATE API KEY IN SENDGRID UI

### PYTHON CODE

```
from sendgrid import SendGridAPIClient
from sendgrid.helpers.mail import Mail
import os
message = Mail(
    from_email="mohammedkaifk.19ece@kongu.edu"
    to_emails=payload["email"],
    subject='Verify Your Email Address',
    html_content='<h3>please verify your email address by
clicking the link below</h3><br /><a
href="http://127.0.0.1;5000/verification/{}>verify
now</a>'.format(payload["email"])
)
```

```
sg = SendGridAPIClient(os.environ["SENDGRID_KEY"])
sg.send(message)
)
```
